

The **Buckthorn Blaster™** is a hand-held, 4 oz. herbicide applicator. Use for cut-stump treatment of buckthorn and other undesirable plant species. Herbicide **(not included)** is released when pressure from foam applicator tip is applied to freshly cut stump or stem.

**Option 1:** Includes two foam applicator tips and their removal tool. **\$6<sup>50</sup>**

**Option 2:** 5 applicator tips and no removal tool. **\$6<sup>00</sup>**

Buckthorn Blaster 5-pack replacement applicator tips. **\$2<sup>50</sup>**

3-pack of Buckthorn Blaster replacement caps. **\$2<sup>00</sup>**

### Buckthorn Control and Field Identification Guide

Buckthorn control options and detailed color photos to assist with the identification of native shrubs often confused with buckthorn.

Learn to identify native shrubs most often mistaken for buckthorn. This 42-page **Buckthorn Control and Field Identification Guide** is essential in the buckthorn battle. Species photos (leaf, twig, bud & fruit) and detailed characteristics for each plant

simplify accurate ID. Plus, learn varying methods of buckthorn control for restoration of native woodland habitats. **\$10<sup>00</sup>**

**Mark-It Blue®** is a concentrated landscape dye used to highlight areas of herbicide treatment to avoid accidentally omitting areas. Add directly to herbicide or add ½ to 1 tsp. to Buckthorn Blaster™ before each herbicide refill. Water soluble. **\$7<sup>00</sup>**
